TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT

No Wind Signal is currently hoisted

OTHER HAZARDS AFFECTING LAND AREAS

Severe Winds

The surge of the Northeast Monsoon will also bring strong to gale-force gusts over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Batanes, Babuyan Islands, Ilocos Norte, Abra, northern and eastern mainland Cagayan, eastern Isabela, Aurora, Rizal, Quezon, Lubang Islands, Romblon, Marinduque, Bicol Region, Northern Samar, Caluya Islands, Dinagat Islands, and Siargao-Bucas Grande Islands.
- **Tomorrow (21 January):** Most of Luzon, Visayas, Caraga, Davao Region, and Zamboanga Peninsula; Camiguin, Misamis Oriental, Lanao del Norte, Basilan, Sulu, and Tawi-Tawi.
- **Thursday (22 January):** Most of Luzon, Visayas, Caraga, Davao Region, and Zamboanga Peninsula; Camiguin, Misamis Oriental, Lanao del Norte, Basilan, Sulu, and Tawi-Tawi.

TROPICAL CYCLONE BULLETIN NR. 28

Tropical Depression ADA (NOKAEN)

Issued at 5:00 PM, 20 January 2026

Valid for broadcast until the next bulletin at 11:00 PM today.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the seaboard of Northern Luzon. For more details, refer to Gale Warning No. 2 issued at 5:00 PM today.

24-Hour Sea Condition Outlook

Up to very rough seas over the following coastal waters:

- **Up to 5.5 m:** The seaboard of Batanes, Babuyan Islands, and Isabela; the eastern seaboard of mainland Cagayan.
- **Up to 5.0 m:** The seaboard of Ilocos Norte.
- **Up to 4.5 m:** The seaboard of Ilocos Sur and northern Aurora.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 3.5 m:** The seaboard of Camarines Norte; the northern and eastern seaboard of Polillo Islands and Catanduanes; the remaining seaboard of Aurora.
- **Up to 3.0 m:** The seaboard of La Union, Pangasinan, northern Quezon, and Camarines Sur; the northern and eastern seaboard of Northern Samar; the eastern seaboard of Albay, Sorsogon, Eastern Samar, Dinagat Islands, and Siargao-Bucas Grande Islands; the remaining seaboard of Polillo Islands and Catanduanes.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The seaboard of Zambales, Kalayaan Islands, and Surigao del Sur; the eastern seaboard of Davao Oriental.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

ADA is forecast to move generally southeastward for the next 24 hours. Continuous dry air entrainment from the northeast monsoon is expected to result in gradual weakening of ADA. It may be downgraded into a low pressure area by tomorrow (21 January).

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 PM today.
